***Election/Restrictions***

1. Newly submitted claims 22-31 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The newly submitted claims are drawn to a method of operating a catheter. The originally filed claims were drawn to a catheter and did not include the method steps as currently claimed. The method of using the device does not include some of the structure of the previously claimed catheter including the linear wire and tubular body being positioned so that a longitudinal axis of the linear wire does not intersect the tubular body, etc. The previously claimed device can be used in a materially different method such as a method not requiring a push in force to penetrate a stenotic lesion.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 22-31 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. Therefore thee reply filed on 7/2/09 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): see above. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
